

Is your business in the Old Economy Historic District ?

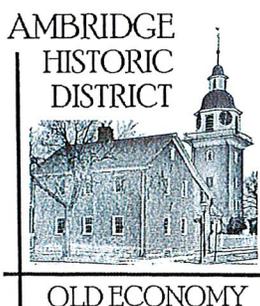

There is a historic district surrounding the Old Economy Village museum.

* If your business is located in the historic district, your proposed exterior changes, improvements, or signage may require a review by the HARB (Historic Architecture Review Board).

Contact the borough office for clarification & application information.

* The local historic organization provides assistance grants for businesses located in the historic district. You can contact the AHDEDC (Ambridge Historic District Economic Development Corp) at HistoricDistrict@gmail.com for more information.

In addition to the commercial corridor of Merchant Street in the district, limited commercial/retail businesses that support the district's character are allowed within the residential area of the district. The list is provided in the borough's zoning ordinance, under the Historic section (Chapter 27, Part 7)
