Office 724-266-4070

October Report

Mayor and Council;

Attached you will find the monthly lists of all reports submitted by the Ambridge Police Department for the month of September, 2019. Addresses have been redacted to protect the privacy of victims and other reporting individuals. We have also highlighted a few of the more numerous incidents we experience in Ambridge.

With the Mayor's permission, I am absent from the October meeting due to family demands.

'Coffee with a Cop' monthly meeting was held at the Laughlin Memorial Library in order to give working people a chance to meet, comment or ask questions. It was very well attended. There is no monthly meeting this month as I will be absent. Meetings will continue next month, again at the library immediately following council session.

Preliminary meeting was held with Dr. Welter, Superintendent of the Ambridge Area School District to inform students in the district that there is a 10:00 PM curfew in Ambridge which will be strictly enforced in the coming months. We also discussed some ideas regarding instructional meetings with students about what to expect in encounters with law enforcement. We also discussed these plans with the District Attorney and more meetings will follow.

Accompanying find the Automated License Plate Reader System Policy for approval in anticipation of camera deployment. Once active, the District Attorney will provide regional training.

We discussed the possibilities of applying for a COPS grant, car and body cameras and new communications equipment (portables and unit radios) at the Public Safety meeting. We will be examining the body cams and systems used by the Beaver County Sheriffs' Office and the Pittsburgh Bureau of Police. We met with Kevin Bowser of Rep. Rob Matzie's office regarding grant opportunities and we will discuss this further at a Public Safety Meeting.

The TASER incident of 13 Sep has been referred to the District Attorney's Office and the Police Review Board.

We discussed with the District Attorney the possibility of equipping officers with Narcan and will discuss this further with the Public Safety Committee.

Find other routine reports attached.
